## Summery

Motivated and detail-oriented MCA graduate with strong programming skills and a passion for software development. With hands-on experience in Core Java, web development, and database management, I aim to contribute to innovative software solutions in a dynamic work environment.

---

## Skills

- **Programming Languages:** Core Java, PHP
  - **Web Development:** HTML, CSS, JavaScript, React
  - **Database Management:** MySQL, JDBC
  - **Tools and Software:** Eclipse, Visual Studio, NetBeans
  - **Operating System:** Windows, Linux
- 

## Training :-

### Codenera Pvt Ltd, Pune –*Java Full-Stack (Feb 2024 – Nov 2024)*

- Acquired proficiency in Core Java, HTML, CSS, SQL, and JDBC.
  - Participated in collaborative software development projects.
  - Received training in Java, Spring, and Hibernate frameworks.
  - Successfully completed a 6-month Java training program, mastering key concepts and practical applications.
- 

## Project

### 1. Agriculture Web Portal

- Developed a web-based portal that enables farmers to sell products like seeds and materials directly, allowing them to connect with buyers easily. The platform also provides free information about fertilizers and agricultural best practices to help farmers improve their yield.
- Utilized Java, HTML5, CSS3, and MySQL for backend and frontend development.
- Created a feature for farmers to list their products with detailed descriptions and pricing.
- Implemented secure user registration and login functionalities to manage buyer and seller accounts.
- Integrated a section for farmers to access information about fertilizers, crop care, and market trends.

## 2. E- learning Platform

- Created a web-based platform that provides students easy access to notes and allows them to purchase courses for efficient learning. The platform aims to enhance the learning experience through interactive tools and resources.
- Used Java, HTML5, and CSS3 to build an engaging user interface.
- Developed features for instructors to create, manage, and update courses and materials seamlessly.
- Integrated discussion forums for students to collaborate, ask questions, and share insights.
- Collected user feedback to continuously enhance platform features and usability.

---
